## **STATEMENT**

**8 February 2010**

### **On OIRA Decommissioning**

“Further to an IICD statement on decommissioning earlier today [8 February 2010], the IICD can confirm it has, over a period of time, been engaged with representatives of the Official IRA to facilitate a decommissioning process, which has recently been concluded. The OIRA representatives have informed us that the arms decommissioned constitute all that were under the control of that organisation.”
